

THE FIFTH INTERNATIONAL SYMPOSIUM ON COMPUTATIONAL WIND ENGINEERING

Chapel Hill, North Carolina, USA
May 23-27, 2010

SPONSORSHIP OPPORTUNITIES

The Fifth International Symposium on Computational Wind Engineering (CWE2010) in Chapel Hill, North Carolina, USA, May 23-27, 2010 is an important global initiative that involves organizations and supporters from around the world. This event is convened every four years, therefore each event reflects the significant scientific advances in the rapidly developing computational wind engineering sciences linked to advances in high performance computing hardware and software.

CWE2010 offers a unique marketing opportunity to sponsors. Our extensive preconference marketing campaign and on-site activities provide excellent exposure for your company or organization. Through pre-event marketing distributions via Web posting and e-mail, and advertising on the symposium Web site, you gain exposure to thousands of qualified industry members. In addition, you have the opportunity to share your message with a centralized audience of scientists, academics, technologists, architects, and engineers from around the world who will be in attendance and who represent the world's top scientific developers and practitioners for computational wind engineering. This is an opportunity to both support this critical gathering and to advertise your products to the world wide audience that will be viewing the symposium Web pages.

Premier Sponsors (\$14,000 limited to 4)

- 2 symposium registrations
- Run of site banner ad on symposium Web site (www.cwe2010.org)
- Company logo on the bottom of every page of www.cwe2010.org
